the world. People come to us from far and wide for our incomparable inventory, indisputable reputation for integrity and service, and our down to earth character. Now into our fifth generation, we are the oldest business of our kind in Türkiye

## What we believe

We believe that rugs should not only look stunning, but also be made to stand the test of time

We believe in selling a sustainable product, not something that is purchased only to be thrown away after 5 or even 10 years

We believe in treating our team – weavers and staff – like family, and treating our customers like family
